- [Find Another Player](#)

Klik på Set up notifications og klik på Create a new notification på den side der kom frem

## Add/Edit Instant Notifications

[View All Notifications](#)

The instant notification service lets you monitor a particular area for certain types of logs that are posted on Geocaching.com. It is notifications of newly published caches near one's home coordinates. [See detailed instructions](#) on adding a notification.

**Name:**

**Type to Watch:**

**From what coordinates would you like to base this search?**

hjemmekoordinater

N  °  '

E  °  '

**Look Up Postal Code:**

| [Map It](#)

**Distance in Kilometers:**

hvor langt væk ønsker man notification

**Send To:**

[Add an Additional E-Mail Address to Your Account](#)

**Enable Notifications (Uncheck to Pause)**

Her vælges hvilke cachetype man vil have besked om – man kan kun vælge en type for hver notification. Vil man have besked for alle cachetyper - skal man create en notification for hver enkelt cachetype. Når cachetype er valgt – skal man sætte flueben i publish listing

Den mail man vil have beskeden sendt til.

Hvis man vil have dem sendt til en anden mail, kan man ændre det her.

Til sidst klikkes herover på, create notification
